NRAA Electronic Target Committee

The NRAA has finalised the formation of its Electronic Targets Committee

The members are:-

| | |
|----------------|---------------------|
| Bob Pedersen | NRAA Rules Director |
| Bob Dyer | NTRA |
| Eric Christie | NQRA |
| John Caske | QRA |
| Len Brown | NSWRA |
| David McIntosh | ACT |
| James Corbett | VRA |
| Rod Jarvis | TRA |
| Graeme Minchin | SARA |
| Rob Alman | WARA |

Individuals, States and Territories are invited to send any submissions, opinions and information to any of the Committee Members or directly to Bob Pedersen at rules@nraa.com.au or direct to the NRAA at nraa@bigpond.com

We hope the committee will be able to gather evidence and information, and be able to disseminate this Australia wide, with perhaps some recommendations and advice about what is available and what to look for within electronic targets and the systems that support them. In addition the committee will perhaps be able to make recommendations to the NRAA about rule and procedure changes, that will be needed to cope with electronic targets.

The first Workshop will be held in Brisbane at Belmont on 22nd and 23rd August. We thank the QRA for providing accommodation.

The Agenda for the Workshop has not yet been finalised and anything that people may wish to contribute will be welcomed.

Bob Pedersen
NRAA Rules Director
