Revised August 2011 Edition of the SSR's Now Available.

The PDF Version of the Revised SSR's is now available for download from this NRAA Web Site. Click on the "Publications" menu and you will see the SSR's.

The new edition has also been sent to the printer to produce hard copies. These will be available through State and Territory Associations from the NRAA at a nominal price. An announcement will be made as soon as the hard copies are available.

The Electronic copy has been sent to all State and Territory Associations with a request that they send it on all their members with email addresses.

Once the NRAA eventually establishes a National Database with contact details we will be able to send such information directly to members.

The Electronic PDF is now much more user friendly. On Page 2 is a list of the Rule Changes. If you hover over any of these and click, it takes you directly to the spot. The same occurs on Page 4, which is the Chapter list. On the left side of the document are Bookmarks, which list all the Chapters and subsections. When you click on any of these you will go directly to the Chapter or subsection.

Hopefully your State or Territory Association will have sent you a copy if you have an email address registered with them. If not, you can download it from the NRAA Web site. A lot of time has gone into typing, proof reading and correcting by a couple of people. I'm sure others will perhaps still find errors, so let me know, but please be gentle with me.
